EDUCATION

Rajarambapu Institute of Technology, Sangli. **Nov 2022 – June 2026**
CSE(AI and ML) - ***CGPA - 7.32*** *Sangli, India*

Karmaveer Bhaurao Patil, Jr. College, Bhuinj. **Aug 2020 – March 2022**
HSC - PCM - ***Percentage - 62.83%*** *Satara, India*

PROJECTS

Intelligent Document Q&A Chatbot using RAG

Python, LangChain, RAG, LLM, ChromaDB, Streamlit, Groq

- Developed a RAG-based document question-answering application that enables users to upload PDF documents and ask context-aware questions.
- Implemented document processing, text chunking, embeddings, and vector similarity search to retrieve relevant information.
- Integrated a Groq-hosted LLM with retrieved document context to generate grounded answers and reduce hallucinations.
- Added source and page references to improve answer transparency and reliability.

Autonomous AI Agent for Task Automation

Python, LangChain, LLM, Tool Calling, AI Agents, Streamlit, Groq

- Developed an LLM-based agent capable of understanding user requests and determining when available tools are required.
- Implemented tool calling and multi-step agent workflows for executing tasks and processing tool outputs.
- Designed an agent workflow that determines whether a tool is required before generating a final response.
- Built an interactive interface for users to provide tasks and monitor agent responses.

LLM & RAG Evaluation System with Machine Learning

Python, Scikit-learn, NLP, LLMs, RAG

In Progress

- Developing an evaluation system to analyze the quality of LLM- and RAG-generated responses.
- Working on evaluation criteria including correctness, relevance, faithfulness, completeness, and retrieval quality.
- Developing a machine learning pipeline to classify AI-generated responses using extracted evaluation features.
- Building a Streamlit interface to analyze evaluation results and identify weaknesses in LLM/RAG responses.

TECHNICAL SKILLS

Programming Languages: Python
Data & Visualization: NumPy, Pandas, Matplotlib, Seaborn
Machine Learning: Machine Learning, Scikit-learn
NLP & LLM Applications: NLP, LLMs, RAG, Text Embeddings
Frameworks & Tools: LangChain, ChromaDB, Streamlit, Groq
Databases: MySQL, ChromaDB
Core Concepts: Object-Oriented Programming (OOP), DBMS
Tools & Platforms: Git, GitHub, VS Code, Jupyter Notebook, Google Colab

CERTIFICATIONS & ACHIEVEMENTS

Machine Learning, Deep Learning, GenAI – LearnTube & CampusX

Event – SAAI, RIT (May 2024 – May 2025)

Coordinating one event related to gaming. Led a state-level technical fest at RIT Sangli with 300+ participants across gaming events, demonstrating leadership, coordination, and organizational skills.
